## Kansas Farm Management Association The Wild Ride of 2020

- COVID pandemic, market and supply chain disruptions, uncertainty, volatility, Economic Stimulus
- COVID related legislation – CFAP1 CFAP2, PPP loans
- Strong yields, especially dryland fall crops in many areas
- Low yields in far western and some parts of southeast
- Price squeeze for livestock producers
- Volatile market prices – strong grain prices at end of year
- Strong working capital position at end of year
- Decrease in total debt per farm in 2020
- Machinery investment per crop acre increased 16% in 2020

## Kansas Farm Management Association Looking ahead

- While we have had some moisture, some areas still dry
- Potential for good crop yields in 2021 in areas of the state
- Expect continued price volatility
- Input costs up in 2021 – higher commodity prices...higher input costs to follow, higher fuel/energy costs
- Cont'd COVID related legislation early in 2021 – CFAP3, PPP loans
- But...expect less government support this point forward
- Estate tax – Exemption level, stepped-up basis changes?
- Carbon Credits, Conservation?

## Kansas Farm Management Association Looking ahead

### What can you do?

- Keep good records – use your records to manage your operation
- Know your cost of production
- Current opportunities for pricing grain above cost of production
- Seek to have your operation in a strong working capital position
- Planned approach to machinery and equipment purchases
- *Think Strategically and Proactively as you look to manage in the coming year!*
